DEMONSTRATION SRS

Example website and lead-management dashboard

For PDF walkthrough only. Not a real customer contract.

Deliverables:

1. Five responsive public pages and one project enquiry form.
2. One password-protected lead dashboard with two access roles.
3. Up to eight API endpoints and five database models.
4. One production deployment, setup notes and handover.

Acceptance criteria:

- Enquiries validate required fields and appear in the lead dashboard.
- Protected routes reject unauthorised requests.
- Agreed pages work at 320px, 390px and desktop widths.
- HTTPS, health checks and agreed deployment steps work.

Not included: e-commerce, migrations, content writing and cloud charges.

Timeline: confirmed after client content, access and design approval.

Commercial terms and revisions: read the complete quotation agreement.
